- New fields have been added to allow the C-STARS interface to pass the C-STARS data to CAMS. The feeder system is the interfacing system which is passing the purchase order data to CAMS, for example, C-STARS. For manually entered documents, these fields are not enterable and the cursor will pass by them as your are tabbing through. The new fields are:
  - ◆ **Feeder Sys: No** – This field will be used to identify the interfaced feeder system number and feeder system release number. For Non-Interfaced CFS created documents this field will be populated based on the input from the FM040.
  - ◆ **Source** – This field will be used to identify the interface source
